ALL NATURAL FERTILIZER

Soybean Meal

7-1-2

Net Wt. 20 lbs., 9.07 kg.

Soybean Meal is an outstanding source of slow-release nitrogen for promoting vegetative growth and early plant development. It provides gardeners an effective plant-based fertilizer for use in vegetable and flower gardens, lawns and landscape. Our Soybean meal is derived from organically grown soybeans that are mechanically processed to preserve the highest plant nutrient value.

GUARANTEED ANALYSIS		APPLICATION RATES
TOTAL NITROGEN (N)	7.0%	2 cups = 1 lb; 1/4 cup = 2 oz; 1 tbsp = 0.5 oz
7.0% Water Insoluble Nitrogen*		Vegetable Gardens & Flower Beds: To prepare new gardens, apply 2.5-5 lbs per 100 square feet and thoroughly mix into the top 3" of soil. For new transplants, add 1-2 tbsp per hole, mix into soil and water in well. To feed established plants, side dress 2-4 oz, depending on size of plant and desired growth rate, once each month during the growing season.
AVAILABLE PHOSPHATE (P ₂ O ₅)	1.0%	Containers & Houseplants: For new plantings, add 2-4 tbsp per gallon of soil and mix thoroughly OR add 2.5-5 lbs per cubic yard. For established plants, lightly mix 1-2 tbsp per gallon into the soil surface once each month during the growing season.
SOLUBLE POTASH (K ₂ O)	2.0%	Lawns: In Spring, apply 10-15 lbs per 1,000 square feet and water in well. For Summer and Fall applications, decrease amount to 5-10 lbs per 1,000 square feet. Three to four applications per year are recommended and results may be enhanced if applied following aeration.
		Trees & Shrubs: Spread 1 lb per 1" of trunk diameter around the base outwards to the drip line, mix into soil surface and water in well. For new trees, prepare transplant hole and mix 1-2 cups with the backfill soil. Use amended soil to fill in around new tree and water in well.

Derived from: Soybean Meal
*7.0% Slow Release Nitrogen from Soybean Meal
