Guaranteed Analysis:

- **Total Nitrogen (N)**: 2.0%
- **2% Nitrate Nitrogen**: 1.0%
- **Soluble Potash (K₂O)**: 1.0%
- **Boron (B)**: 0.1%
- **0.1% Water Soluble Boron (B)**: 0.1%
- **Copper (Cu)**: 2.0%
- **0.1% Water Soluble Copper (Cu)**: 2.0%
- **Iron (Fe)**: 1.0%
- **2% Water Soluble Iron (Fe)**: 1.0%
- **Manganese (Mn)**: 2.0%
- **2% Water Soluble Manganese (Mn)**: 2.0%
- **Zinc (Zn)**: 1.0%
- **2% Water Soluble Zinc (Zn)**: 1.0%

**Derived from:** Sodium Nitrate, Potassium Sulfate, Sodium Borate, Copper Sulfate, Ferrous Sulfate, Manganese Sulfate and Zinc Sulfate.

**Product Information:**

Down To Earth Liquid MicroNutrient provides five plant essential micronutrients plus an additional boost of Nitrogen and Potassium in an easy to use concentrate. Formulated with water soluble nutrients that are in a plant available form, it's ideal for correcting nutrient deficiencies in vegetable gardens, field crops, fruit trees, vines and turf grasses through foliar or soil applications.

Supplemental Information: This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200. All components are on the U.S. EPA TSCA Inventory List.

Listed by the Organic Materials Review Institute (OMRI) for use in organic production.

**Warnings:**

- **Warning:** Causes skin irritation. Causes serious eye irritation.

- **Precautionary Statement:**
  - **Prevention:** Wash thoroughly after handling. Wear protective gloves. Wear eye/face protection.
  - **Response:** If on skin: Wash with plenty of water. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If skin irritation occurs: Get medical advice/attention. If eye irritation persists: Get medical advice/attention. Take off contaminated clothing and wash before reuse.
  - **Storage:** Store away from incompatible materials. Products should be stored above 12.8°C (55°F). Storage of bulk products is best suited for original manufacturing containers. If required, storage in a polypropylene storage tank with polypropylene fittings is recommended. Metal storage tanks and fittings are not recommended for long term.
  - **Disposal:** Dispose of waste and residues in accordance with local authority requirements.

**Directions for Use:**

**Shake Well Before Using**

**DTE Liquid MicroNutrient** is effective as either a soil drench or as a foliar spray and may be used to correct a documented soil or tissue test deficiency. Best used as a foliar spray in early morning or late evening.

**Soil Drench:** Use 1-2 Tbsp (0.5-1.0 oz) per gallon of water OR 1/2-1 gallon per acre depending on level of deficiency. Can be applied once or twice each month during the growing season. Apply around the base of plants, at the drip line of trees or through an irrigation system.

**Foliar Spray:** Use 1-2 Tbsp (0.5-1.0 oz) per gallon of water OR 1-2 quarts per acre depending on level of deficiency. For best results, combine with a natural surfactant to increase adhesion to the leaf surface.

**Acreage:** For a seasonal total of 1-3 quarts per acre (gpa) use a combination of the following methods:

<table>
<thead>
<tr>
<th>Method</th>
<th>Field/Row Crops</th>
<th>Tree/Vine Crops</th>
</tr>
</thead>
<tbody>
